

**DELRAY BEACH GREEN TASK FORCE**

**10/4/08 PUBLIC WORKSHOP IDEAS GENERATED**

Category	Idea	Votes
Waste Reduction and Recycling	Historic preservation: save wasted building material and energy	42
Sustainable Urban Design	Turn Atlantic Ave from Swinton to Federal Hwy. into a Pedestrian Mall. Motor Traffic to run on north/south intersecting Streets only. Exception for motorized wheelchairs/scooters.	40
Waste Reduction and Recycling	Promote Recycling by establishing a "Green Day in Delray" with fleamarket and lectures	39
Energy Efficiency & GHGs - Building	Recycle Shipping/ Cargo Containers	33
Energy Efficiency & GHGs - Building	Education Program for Children	32
Sustainable Urban Design	Green Economic Zone- Create a Zoning Category w/ all Green Businesses/companies	23
Waste Reduction and Recycling	Implement a site for composting in Delray Beach	22
Sustainable Urban Design	Protect Green Open Spaces (Old School Square, Worthing Park, Vetrens Park)	20
Sustainable Urban Design	Subsize Higher Density Housing	19
Fuel Efficiency & GHG from Transportation	Improve Roundabout schedule, routing, area, services	17
Water Efficiency & Conservation	Grey and black water recycling	15
Water Efficiency & Conservation	Tax credit for sustainable planting	14
Indoor & Outdoor Environmental Quality	Require marina dwellers to use pump station	12
Indoor & Outdoor Environmental Quality	Ban all toxic pesticides for buildings and landscapes - use organic substances instead	12
Waste Reduction and Recycling	More education on what can and can't be recycled. Many residents do not know	12
Waste Reduction and Recycling	Ban plastic bags in grocery stores	12
Indoor & Outdoor Environmental Quality	100% re-use goal for sewage management	11
Water Efficiency & Conservation	Public education on sustainable planting	11
Waste Reduction and Recycling	Mandate commercial & restaurant recycling for customers (beverage & paper)	11
Sustainable Urban Design	Permeable Parking & Paving (make legal/promote/require)	11
Fuel Efficiency & GHG from Transportation	Don't send Hook and Ladder trucks to all health assist calls	10
Fuel Efficiency & GHG from Transportation	Tax incentives for companies encouraging shuttle pickup	10
Water Efficiency & Conservation	City wide program to incentivize checking for leaks + help to fix	9
Waste Reduction and Recycling	Junk-Art: Inner City Art program from trash; kid program; 4 block area; auction off art	9
Energy Efficiency & GHGs - Building	Provide Expedited Permitting for LEED	9
Fuel Efficiency & GHG from Transportation	Have public "plug in" areas for electric cars	8
Waste Reduction and Recycling	Mandate restaurants to have composting units and City to have a program where it buys composting	8
Waste Reduction and Recycling	Program to collect restaurant cooking oil and refine to use in City fleet	8
Sustainable Urban Design	Mixed use Developments with Ammenities & Daily Services within walkable distance	8
Indoor & Outdoor Environmental Quality	Mandate intracoastal fuel stations have spill cups for boaters	7
Water Efficiency & Conservation	Capture / re-use condensation from HVAC	7
Waste Reduction and Recycling	Neighborhood composting collection system	7
Sustainable Urban Design	Free Parking for Electric Vehicles	7

Sustainable Urban Design	Green the Physical Plan of the City	7
Energy Efficiency & GHGs - Building	Promote / Educate about Green Roofs	7
Energy Efficiency & GHGs - Building	Solar Outdoor Lights Battery Charging / Street Lights	7
Indoor & Outdoor Environmental Quality	Public awareness campaign for green households and commercial cleaning, pesticide use	6
Indoor & Outdoor Environmental Quality	Incentive program for corporate to use green products, pest controls, fertilizers	6
Waste Reduction and Recycling	Place City recycling containers next to trash containers	6
Indoor & Outdoor Environmental Quality	City has a certification program for businesses following green indoor / env. Quality green properties	5
Fuel Efficiency & GHG from Transportation	City Website where people can sign up to share rides.	5
Fuel Efficiency & GHG from Transportation	Recruit biofuel distributors	5
Sustainable Urban Design	Change Zoning to Include Urban Agriculture as a Land Use Category.	5
Sustainable Urban Design	Implement Walking & Bike Paths Thruout City	5
Energy Efficiency & GHGs - Building	Encourage Sustainable Products when Remodeling	5
Energy Efficiency & GHGs - Building	Use of time/temp controls for A/C	5
Water Efficiency & Conservation	Inverted rate structure or modified water rates to encourage conservation and penalties (residential / commercial)	4
Water Efficiency & Conservation	Incentives for energy star water products (water heaters, toilets, shower heads)	4
Fuel Efficiency & GHG from Transportation	Synchronize Traffic Lights	4
Fuel Efficiency & GHG from Transportation	4 day work week	4
Waste Reduction and Recycling	Mandate construction recycling	4
Energy Efficiency & GHGs - Building	Create cfl Exchange Program	4
Energy Efficiency & GHGs - Building	Promote Incentives with FPL Efficient Lightning	4
Energy Efficiency & GHGs - Building	Moderate Carbon Reduction Construction Standards	4
Indoor & Outdoor Environmental Quality	School program to teach children about green cleaning / pesticide etc. alternatives	3
Indoor & Outdoor Environmental Quality	Convenient collection points for all toxic and hazardous waste	3
Indoor & Outdoor Environmental Quality	Use of enzymes for sewage management and odor control	3
Fuel Efficiency & GHG from Transportation	Bike racks and bike rental kiosk	3
Sustainable Urban Design	Incentivise Developers to Allocate 2% of Contractor Budget to Fund Open Space Purchase	3
Sustainable Urban Design	Provide Incentives (Site Planing Review Process) for Green Site Planning /Sustainable Site Design- Lower Review Fees or Faster Review Process.	3
Energy Efficiency & GHGs - Building	Each City Design a area for Windmills	3
Energy Efficiency & GHGs - Building	Site Design For Prevailing Breezes and Shade	3
Indoor & Outdoor Environmental Quality	Utilize natural predator instead of pesticides	2
Water Efficiency & Conservation	Promote dual flush and waterless urinals	2
Water Efficiency & Conservation	City partnership w/ manufacturers for rebates, water heaters, toilets	2
Water Efficiency & Conservation	Reclaim water run off from street; use for irrigation	2
Water Efficiency & Conservation	non-chlorine pools and public fountains	2
Water Efficiency & Conservation	Harvest rainwater through cisterns and rain barrels	2
Fuel Efficiency & GHG from Transportation	Hire Employees who live close to your work	2
Fuel Efficiency & GHG from Transportation	City vehicles convert to hybrid and have available for residents	2
Fuel Efficiency & GHG from Transportation	Public transit more bike & package friendly and better bus shelters	2
Waste Reduction and Recycling	Set-up recycling programs for office complex multi-office bldgs	2
Waste Reduction and Recycling	Label bins more clearly with larger print	2

Waste Reduction and Recycling	Categorization of all waste plus local destinations for all recycling	2
Sustainable Urban Design	Use Less Black (lighter color) on Roads & Paths	2
Energy Efficiency & GHGs - Building	Operable Windows in All Buildings	2
Energy Efficiency & GHGs - Building	Public Awareness Campaign on Energy Conversation	2
Energy Efficiency & GHGs - Building	Mandate Timers Motion Sensors	2
Energy Efficiency & GHGs - Building	Minimum Temperature requirement for Commercial Buildings	2
Indoor & Outdoor Environmental Quality	Use organic pesticides and herbicides at golf courses	1
Indoor & Outdoor Environmental Quality	Use of ozinator instead of chemicals	1
Water Efficiency & Conservation	Public water conservation awareness campaign	1
Fuel Efficiency & GHG from Transportation	Do a monthly ride your bike to destination ride	1
Fuel Efficiency & GHG from Transportation	Incent scooter use	1
Fuel Efficiency & GHG from Transportation	Promote downtown electric golf cart program	1
Sustainable Urban Design	Review and Modify Zoning Codes to Encourage and Facilitate Sustainable Design Concepts and Land Use.	1
Energy Efficiency & GHGs - Building	Water Heater/Tankless/Solar	1
Indoor & Outdoor Environmental Quality	Mandate city parks use organic pesticides / herbicides	0
Indoor & Outdoor Environmental Quality	Mandate all boats use eco-friendly soaps and cleaners	0
Indoor & Outdoor Environmental Quality	Eliminate aerosols used for cleaning	0
Indoor & Outdoor Environmental Quality	Use diatomaceous earth for pesticide location - limit pesticides	0
Water Efficiency & Conservation	Stormwater Management - greywater reuse measurable dispersement	0
Water Efficiency & Conservation	Water use limits twice per week - year round	0
Water Efficiency & Conservation	Limit public countains / eliminate reclaimed rain water	0
Fuel Efficiency & GHG from Transportation	More Bike Parking	0
Fuel Efficiency & GHG from Transportation	Electric Trolley	0
Waste Reduction and Recycling	Policing by vendors and solid waste management who is recycling	0
Sustainable Urban Design	Remove Grass in All Parks & Replace with Xeriscape	0
Sustainable Urban Design	Sustainable Urban Design	0
Sustainable Urban Design	More Roadblocks-Saves Idling	0
Energy Efficiency & GHGs - Building	Use of Low Power Ceiling Fans/lights	0
